Salt Lake City, UT 84108

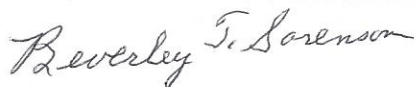

Dear Donna,

The visit at Beacon Heights this Tuesday with the photographer taking photographs of me working with the children as they made a book about sunflowers was fabulous. The project was a very interesting experience for me. I was impressed with the simple learning of the flower, which was reinforced by the classroom teacher as she worked with a majority of the students throughout the process. It was a very good example of you, the visual art specialist working side-by-side with the classroom teacher.

Talking to you afterwards you told me you were leaving and going to Utah State to get your masters degree.

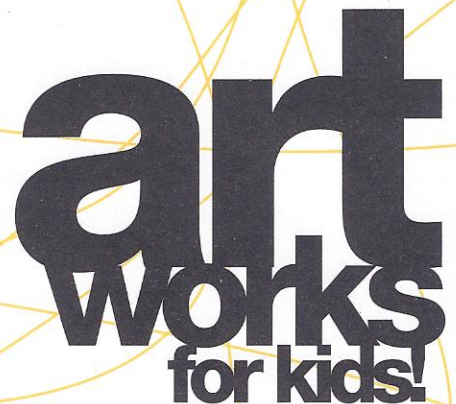

I would be happy to send a letter of recommendation to Utah State, if you desire, when the time comes.

Best,

Beverly T. Sorenson
