

Ms. Pence

Thank you for your extraordinary efforts to plan with teachers so that we can all successfully combine the complex ideas of art expression with the content of each grade level curriculum areas.

A requirement of elementary education is the ability to be a "Jack of all Trades". We don't expect that of our artists, who instead, specialize in one or two aspects of art creation. You have amazed and thrilled us all with the fabulous student creations in the multitude of mediums of art.

Rae
